BISHOP WHITAKER'S SCHOOL FOR GIRLS, RENO.

This School has been in successful operation for three years and a half and has become will known throughout the State. From the time it was a rat opened until now no pains have been appred on the part of those who have it in charge to make it.

FIRST-CLASS SCHOOL,

Fully worthy the confidence of those who have aughters to be educated. And these efforts ranky worthy be connected that these efforts bave been successful. It gives us piesure to say that although the namb v (s s) let us be seen at the been larger than during the last term, the school is now in better condition than it as ever before been at d it is now more than ever before, worthy of patronage and support.

TEACHERS:

Miss Kate A Sill the first, Principal returned and resumed her jossion at the binning of the last term to the areat satisfaction of every scholar and friend of the School Mrs L B (frahm has also returned and with Miss shi will hereaf er be identified with the School. Miss Eva Quarifle, the reacher of massic, is too well and tavarially known to need any commentation from us. In addition to these the B v v. Believe Miss Julia Swoodruff, and Missisfanc Briscoe, three hor highly competent teachers have been employed during the past term. Addition to the staff of teachers will be made when ever the wants of the School may require it; but with thirty-five scholes, the number in attentioned during the list term six teachers are amply sufficient to do full justice to every scholar while especial attention is given to the

Common English Studies.

and to the health and good manners or scholars there is not wenting every sacinty needed for acquiring all the accomplishments of a

Higher Education.

One admirable feature of the School is that lessons in Free Hund Drawing, Singing and Penin nebip are nown regularly to all the pupit a without atta charge. Callethinics and Physical Training also receive due attention. But the best reature of the School is that it is a

Refined Cultivated Christian Home

It is in the formation of a pure womanly character in its public that its b stand most enduring influence is to be found. There are few who have been long connected with the School who do not show the effect of this influence upon their character and habits. The charges are as ow as they can reasonably be placed.

Pays for Board and Puttion in all the English studies Books and Washing are charged at the actual cost An additional charge is made for private lessons in Music, Drawing or Modern

The Louisiana Senatorship.

The decision of the Senate Committee on Privileges and Elections to report in favor of giving Judge Spofford the seat now occupied by Senator Kellogg, is a subject of much comment. Several leading Democratic Senators have open- money for so doing A Democratic ly expressed themselves as opposed to the reopening of the case of Mr Kellogg—asme on the score of expediency and some on the ground that the case was res adjudicate, and that there was no power to reopen it - If these hold to or that any Republicans got to handle their views it is quite probable that the report of the committee-if the action is pressed upon it-will fail to receive the Committee to learn the other side of vote of a majority of the Senate. It is also believed that the report in this case will give the Republicans another opportunity to stir up anew all the war issues and make material for the next Presidential campaign

A HARD CASE.

Washburne is to be unseated. A majority of the House Committee report that his election was secured by money, and strange to relate a large number of Democrats "fell before the sack." In one case a Democratic village Postmaster sold for \$50. In another case a Democratic speaker who had been advocating Donnelly was announced to Michigan University, and his name may make a Democratic speech the night before the election. He made a speech for Washburn and told the next day that he had received \$150 of Washburn's newspaper at Little Falls was bought to support Washburn for \$250 The majority report does not state whether Donnelly expended any money in the canvass. It is not likely that he did any of his sacks. We now anxiously await the report of the minority of the this remarkable case

Dead men tell no tiles, but they cometimes frighten people out of their p...agraphic wits and humors Several days ago Mr. J. McCloud, of Fiulkner county, died of thensuation of the stom arch. He was very highly respected in around the neighborhood that the soul had gone from a body that had been of seemed to hang over the "new mown" helds. The men left their grubbing hoes sticking in the ground, and went to the scene of sorrow, and the women leaving half cooked meds in change of dhildren, accompanied them A large party volunteered to sit up with the corpse and when night came many sad faces of many sad women and men were seen, sallowed by the mellowing light of tallow candles The number came and, entering the door, remarked, "earth to earth and ashes to ashes." The corpse lay on a table covered with sheet "He has gone over the road we must all travel, 'said the minister. "I thought I saw the sheet move," said one of the watchers. "See if there is

The company sat still,

"I am confident that the sheet moved," said the man

The minister grose and lifted the sheet, and standing he looked at the pallid face of the dead man, The corpse's head left the table. The minister fell back Stoff, stark and terrible the corpse slowly mose from the table and attained a sitting posture. The legs remained streched out and the arms remained folded The women shricked and ran from the room, and the minis-ter, reprimanding them for their weakness and want of confidence, climbed a fince and stood in the turnip patch When the fughtcurd people saw that the corpse did not intend to follow they went back into the house. Ine corpse still retuned the upright, rigid positive, still as the attitude struck by an ama-

Proportionately as his head went down his beels came up, and when ins head touched the board his heats were high in the air. The cause of the dead nam's freak was then discovered The muscles of the stomach, distorted by rheumatism, were contracting It required the efforts of two men to stimaliten the corpse A gentleman who was present dich res that he never

The Chinese Mission.

Further inquiry relative to the Chiness mission discloses the fact that the nomination of Seward's successor will probably be transmitted to the Senate much earlier than anticipated. It is reported on high authority that for this position the President has determined on Prof James B. Angell, President of possibly be sent in next week. From the same source it is learned that the President will soon nominate two Commissioners to proceed to China to negotiate a new treaty One of these commissioners will be from the Pacific Coast and the other from the East. The latter will probably be a Democrat
